Consider Professional Property Management

Benefits include

- • Collect rent more efficiently
- • Manage Tenant Leases
- • Manage Security/ Damage Deposits

- Room Check-in and Check-out inspections
- Common Area inspections
- Assess building repairs and work with housing to budget repairs
- Reduce variable expenses
- Improve parent relations
- Improve alumni relations
- Improve Chapter and House Corporation Relations
- Assess rental rates to keep rates competitive
- Achieve higher collection rates
- Have working relationships with qualified repairman, construction firms, and supply vendors in the community

Negatives include:

- Cost- Property management companies cost money. Property management companies usually cost in the range of 3-5% of the gross rent each year. This can be paid by either increasing the rent to each member by this amount or cutting back in other areas. In the long term, the property manager will save the alumni board money.
- Loss of direct control/Less flexibility- Management company will work with you, but they will be in control of collecting funds and special circumstances concerning a brothers payment could be overlooked.
- Separate entity- This would be another relationship that would have to be built and contacts to be made between the chapter and the agency. Trust among the brothers would have to be built as well.
